

# 8 FT CONTAINER

## INFORMATION

An 8' container is very versatile, due to their size. They are a great option for customers who have limited space available – they can easily be maneuvered and delivered into smaller spaces. Manufactured to ISO specifications, an 8' shipping container will stand up to any weather and work related conditions you throw at it.

Whether you are looking for a small tool crib, outbuilding, or generator housing, the possibilities are endless!

## FEATURES
